- Products where the label bearing the serial number has been tampered, defiled, removed or is illegible.
- Defects or damages caused due to improper handling or physical abuse.
- Defects caused by illegal software.

ACCESSORIES

Bluetooth
Voice Remote

2 AAA
Batteries

BLE/Wi-fi Hub

User
Manual

Aux Cable

CONNECTIONS

Connect the BLE/Wi-fi Hub to the USB socket at the back of your Set Top Box. Please ensure the set top box is in power off mode while connecting the BLE/Wi-fi Hub.

Connect the red pin of the Aux cable to STB and the black pin to external speaker.

HOW TO INSTALL

1. BLE REMOTE PAIRING:

Keep the BLE Remote handy that has come along with ALEXA KIT and follow the steps below to pair the BLE Remote with your STB.

STEPS:

- Press Menu key on your existing STB remote.
- Press left/right to highlight "Alexa settings" menu.
- Press up/down to highlight "Bluetooth Search". (See Fig 1.1)
- Press select/OK key on "Bluetooth Search" menu.
- Set the BLE Remote to pairing mode by simultaneously pressing OK & Mute key for 3 sec.
- Highlight & select the "Bluetooth Scan List" option. (See Fig 1.2)
- Select Bluetooth scan list option, Bluetooth remote is visible as BLE Remote. (See Fig 1.3)
- When pairing is in progress an OSD with "Attempting to Pair, Please wait..." will be displayed. (See Fig 1.4)
- After successful pairing an OSD with "Bluetooth Device Connected" will be shown. (See Fig 1.5)

2. Wi-Fi SETUP:

Alexa requires internet connection to work so STB should be connected to a Wi-Fi internet connection, a Wi-Fi connection can be from mobile hotspot or Wi-Fi router.

STEPS:

- Press Menu key on the BLE Remote.
- Press left/right to highlight “Alexa Settings” menu.
- Press up/down to highlight “Wi-Fi Search”. (See Fig 2.1)
- Press OK/select key on “Wi-Fi Search”.
- Wi-Fi menu with different scan options will be displayed.
- Press OK/select key on “Network Scan”. (See Fig 2.2)
- All the scanned Wi-Fi SSID will be listed, highlight your Wi-Fi name. (See Fig 2.3)
- Press OK/select key to Connect.
- If Wi-Fi network is open, connection will be initiated automatically, otherwise OSD for password entry will be shown.
- Enter the password by navigating (left/right/up/down) on the QWERTY keypad shown. (See Fig 2.4)
- Press Green key to connect after password entry.

5. ENABLING AMAZON ALEXA SKILLS:

The Alexa skills that you want to use can be configured according to your needs using mobile application, and the setup is pretty much easy on both Android / iPhone mobiles.

STEPS:

- Go to play store on android phones or App store in Iphone and download Alexa app on your phone.
- Enter the same Amazon account login details in the app as used earlier during Alexa registration. (See Fig 5.1)
- For verification an OTP might be generated and sent to registered mobile number, please enter the OTP received via SMS.

- d. On successful login, Alexa App home screen will be open.
- e. Press the menu on the left side and select Skills & Games. (see Fig 5.2)
- f. Search for required skills to enable and disable them. (see Fig 5.3 & 5.4)
- g. Some skills may require a login account, so after enabling, please login with the account details corresponding to the skill, if you don't have one create them at skill site and enter them.
